Guest List on File

1. Call to Order and Establishment of a Quorum

Quorum Established and meeting called to order at approximately 9:00 AM.

2. Examination Business

Chair Robert Brewer opened up the meeting to allow for testimony regarding the CALE in the Korean language. Legal counsel Spencer Walker recommended allowing testimony only during open session and the remainder will be handled in closed session pursuant to Government Code section 11126(c)(1).

James Kim of the Korean Asian Medicine and Acupuncture Association of the California shared that they feel sympathy for the Korean students who could not complete the examination. He stated that he experienced similar difficulties when he took the exam years ago and suggested that Korean translations be put in parentheses after the Chinese Characters regarding herbs. He is aware that his suggestion had been addressed. He looks forward to the Boards assessment of what occurred with this exam. Jung Won Yu, graduate of Dongguk, asked if there was a translator for the Korean test. He stated that 90% of the test questions were in Chinese. He asked if the Board reviewed the test before the final print. If so, was this intentional? An exam taker from South Baylo University, was shocked by the exam and asked that the Board apologize for what occurred in the exam. Member Charles Kim asked what she did when she saw the test. She said she talked to the proctor and she believes he talked to the Board and was told that the examinees were to leave the answers they couldn't read blank. Paul Weisman asked for background on what happened. Janelle Wedge responded that this would be discussed in closed session. Another student shared that they were shocked to hear that Board Members were not aware of what has occurred. Several students shared that the shock that most Korean test takers were undergoing was causing quite a commotion making it difficult to focus. Janelle Wedge stated that she has all the students' statements on file. Anthony Kim, South Baylo graduate, stated that he had difficulty reaching anyone at the Board to discuss this issue. Robert Brewer stated that he appreciates the involvement of the students in this matter and assured the public that the issue

will be discussed during closed session. A proper solution will be arrived at and the results will be announced as soon as possible.

3. HEARING: Petition for Reinstatement of Surrendered License

Petitioner: Yihan Fang (Case No. PRRL-1A-2010-197)

Board heard Petition

4. HEARING: Petition for Early Termination of Probation or Modification

Petitioner: Kweon Young Yoo (Case No. PETP-1A-2002-132)

Board heard Petition

5. CLOSED SESSION The board convened in closed session pursuant to Government Code Section 11126(c)(1) and (c)(3) to discuss/take action on examination administration, above hearings and disciplinary actions.

6. Announcement from Closed Session

Chair Brewer stated that regarding the issues with the Korean language test, the Board will be taking several steps. The Board will immediately be appointing an Examination Committee to look at these types of issues. The Board will also be working with the Office of Professional Exam Services to see how soon the test can be re-administered to the Korean test takers in the format you were trained to take. The Board will look into the possibility of offering the test before the August 2011 exam. Those that took the test will not be required to pay again. Chair Brewer announced that Charles Kim has been appointed to head the Examination Committee. Frank He will also be a part of the Committee. Spencer Walker noted that the Korean Exam was originally entirely set for closed session but the Board allowed the public to offer testimony.

7. Election of Officers.

Nancy Carroll nominated Robert Brewer for Chair and AnYork Lee nominated George Wedemeyer. Robert Brewer received four votes and was elected Board Chair. Frank He nominated AnYork Lee for Vice-Chair and Robert Brewer nominated Charles Kim. Charles Kim received four votes and was elected Vice-Chair. Member Weisman suggested that the Chair position alternate to other members to allow for more input on the Board.

8. Executive Officer's Report

Board Updates - Executive Officer Janelle Wedge reported that the Board has three vacant positions with both of the receptionist positions open. Due to the hiring freeze, these positions can only be filled by current Department of Consumer Affairs employees making the filling of these essential positions more of a challenge. The office has reworked the phone answering system so that all calls ring on all staff's phones in the hopes that this will allow the public greater access to the office until the positions are filled. Janelle reported that all staff, including Board members, will be required to complete a Sexual Harassment Prevention training. Janelle further reported that the Board's relocation to the new office is on schedule for August. The cost of the new office space will increase by \$ 0.75 per square foot for a total of \$2.25 a sq ft. Square footage is around 3,500. The new furniture will cost around \$50,000.

DCA Updates - The Director of DCA has been holding conference calls for Board Chairs and Executive Officers on a monthly basis to keep the Boards apprised of Department issues.

Budget Updates - Governor Jerry Brown has cancelled the previous administrations proposal to sell and leaseback 11 state properties stating that this would cost the state and taxpayers more in the long run. The Governor proposed to borrow from special funds reserves to offset the supposed gains from the sell and leaseback proposal. \$5 million will be borrowed from the Acupuncture Board to be paid back with interest by FY 2013-14.

Charles Kim stated that he had attempted to call and email the Board on several occasions with no response. As such he would like to raise the issue of office efficiency as an agenda item at the next meeting.

9. Director's Report

LaVonne Powell reported the Director's Report. She stated that although the hiring freeze is still in effect there may be more wiggle room in the months to come easing the situation. Director Stiger has been asked to stay on a while longer. There has been very few appointments made so far as the attention is focused on the Budget. Cell phones have been asked to be turned in. The Department is looking at initiating a new more formal process of using Expert Consultants without hindering the Enforcement and placing the power more within the Boards jurisdiction, actions cutting down time from four days to two. LaVonne thanked the Board for being responsive to this new process and that when the Board goes up for Sunset review the Board will be in very good shape. The BREEZE program is in the works but the Department is waiting for the final product before moving on with it. The Acupuncture Board is scheduled to move to the new system by 2012-13. Charles Kim asked if the Special Fund that the Governor is borrowing is a done deal. LaVonne Powell affirmed it. Charles Kim asked if they are likely to pay the Board back. LaVonne responded that they always have. Robert Brewer asked about the wiggle room for the hiring freeze. LaVonne responded that the budget has been the primary concern, excluding exemptions for the moment but that Core Functions are next in line and this would include Enforcement and Licensing.

10. Approval of November 18, 2010 Meeting Minutes

CHARLES KIM MOTIONED TO APPROVE THE NOVEMBER 18, 2010 MEETING MINUTES. PAUL WEISMAN SECONDED. VOTE: 5 – 0 – 0 MOTION PASSED

11. Administrative update

a. Legislation

1. *AB 72 (Eng)* – Health Care Coverage – Requires Acupuncture to be covered by health insurance carriers.

AnYork Lee stated that this has come up before and it's crucial for the Acupuncture profession to receive insurance coverage such that it no longer is viewed as a secondary medical profession. Neil Miller asked the Board to support this bill and further asked how the new federal health coverage effect acupuncture coverage. CAMA urges the Board to support this bill as this will lead to greater access to consumers and that if California passes this it will be the second state in the nation to do so. Janelle Wedge noted that this is just in the beginning phase and subject to changes but will keep the Board apprised.

b. Regulations

1. *Implementation of AB 2699 (Healing Arts: Licensure Exemption)*

Spencer Walker discussed the proposed regulation allowing out of state health care providers to provide services at a free event to underprivileged populations. These regulations were developed by the Department to provide consistency. The Board will need to decide what educational/experience requirements along with out-of-state licensure. The Board will also need to consider the fee for the processing. The Medical Board has established that fee at \$25.00. The Board will also have to set the parameters for denials. Robert Brewer asked what kind of events the Department is considering to inspire these regulations. Counsel Walker responded that he is uncertain although this is currently law and the department is asking that the Acupuncture Board finalize our requirements. Robert Brewer asked to have this agenda item for the next Board meeting and for suggestions be sent to Executive Director Janelle Wedge. It was suggested that this provision could be used in terms of emergencies as in if an earthquake or fire. Bill Mosca presented SB 628 (Yee?) changes the licensing title from Licensed Acupuncturist to Practitioner of Traditional Chinese Medicine, allow for Doctor of Traditional Chinese Medicine after they have earned their Doctorate, change the Board's name to Board of Traditional Chinese Medicine, introduce a practitioner of Chinese Traumatology licensed under the Board, there would be a period in which senior Tui Na practitioners would be grandfathered in as Chinese Medicine Traumatologists after which it would be closed. Chair Brewer asked Bill Mosca to forward the information to Janelle Wedge.

12. Education Business

a. Update Pending School Applications

Several schools are still awaiting approval. The Board is still waiting on exemptions for out of State Travel to visit those schools.

b. School Site Report on Nine Star University

The Board reviewed the latest report. Chair Brewer asked the new Education Coordinator, Benjamin Bodea, if Nine Star University has met the Board's requirements. Benjamin Bodea affirmed that they had and that he and Janelle Wedge were very pleased with the changes they instituted. Member Kim asked to agendize a probationary term for new schools.

ANYORK LEE MOTIONED TO APPROVE NINE STAR UNIVERSITY. FRANK HE SECONDED. VOTE: 5 – 0 – 0 MOTION PASSED

c. School Site Report on Golden State University

The Board reviewed the report and addendum submitted by Sunny Kim, School president and owner. Chair Brewer asked about any concerns. Benjamin Bodea noted that it is a small school with five students as well as three that are auditing the courses. The school's clinic currently does not have a sink in each treatment room. Member Weisman asked if there are any special provisions regarding the Master's Program. Janelle Wedge responded that the Board doesn't require that the school offer a Master's program only that they abide by our training requirements. AnYork Lee asked how many classes were currently being taught. Benjamin Bodea responded that Golden State University is currently offering six courses this semester. Sunny Kim, President, confirmed six courses. She noted that she's had twenty students over the last four years but since Golden State University does not have Acupuncture Board approval the students have had to transfer to an approved school to get their clinical training and prepare for the exam. AnYork asked how many instructors currently. Sunny Kim responded that there are six instructors and presented the schedule. Charles Kim asked if we reviewed their financial records. Benjamin Bodea responded that we have reviewed their financial records except for their 2010 returns which we received two days ago. He also noted that the income the school claimed from the clinic was a little concerning. Sunny Kim responded that the school has a low overhead and the clinic sees over twenty patients a week. She also noted that the Fire Department has always signed off on her water connections and that there is a restroom next to the treatment rooms. She can also expand her school within the building she currently occupies. Frank He asked how many students she would like her school to have. Sunny Kim responded that she prefers a small school to give a better to the students. The school is hoping to introduce a doctoral program as well. Member Lee noted that when schools start out small their financial status is usually in the clear but that when they start taking on more students they run into the required increasing overhead costs of the school expanding. Robert Brewer noted he supports small schools offering the quality of education that they can but there is concern of a school's financial viability in light of several schools closing due to finances. He would like to see a business plan for the school. Mike Kim, on the Schools Board, asked if there were any discrepancies in the education requirements. Janelle Wedge responded that the curriculum was within the Board's requirements. Robert Brewer asked to table the approval to review the financial information and come back to the next Board meeting for final review.

d. Dong-guk University, California

Janelle Wedge reported to the Board the continued efforts to resolve the transfer credit issue for students that had transferred to Dong-Guk University, California from not just Samra University but from other universities as well. Both representatives from the school and from the students experiencing this issue are present today. David Johnston, a transfer student from Samra University to Dong-Guk University, California, presented progress from the student perspective. David responded that this is a very emotional issue for all the students going through this. Details of the new curriculum was not given until last November, just prior to the last meeting. The administration has been heavy handed and hard headed. David stated that he has had constant meetings to insure that he is taking the right classes to finish his program and he has yet to receive confirmation on what he should be taking. Students are reluctant to speak up for fear of retaliation. The transfer agreement insured that certain teachers from Samra University came to Dong-Guk, California and now he feels that the University is restricting the numbers of courses they were to teach to two. David mentioned Yeiji (last name?) was a Samra dean that transferred to Dong-Guk that has been taken out of the picture once the administration changed. He continued saying that communication with the administration is incredibly fatiguing for the English students, although Mike Kim, the English Dean, speaks perfect English. The Board asked the other students to come up and give their testimony. Chair Brewer asked them to confirm and/or add

to David's report. There is concern that there are no students coming in and thus the early year students will not have the courses offered. Nathan (last name?) reported that the school removed him from the Clinic Director position without a meaningful reason. He noted that he was the Clinic Director at Samra prior to the Bankruptcy. When he was removed from the position he was offered the Director of the English program but did not stay in the position long when he saw he was not able to enact his powers in that position. Scott (last name) is a transfer student from Beijing University shared that his hours that were transferred in were far below the hours he actually took. He stated that the school was using credits as opposed to hours of education even though the credit system is different between China and the U.S. Chair Brewer asked if this was different than what the school initially offered. Scott affirmed. Shalon Akozer, Samra transfer-student, is attending on the GI Bill and when the administration came in they let go of their financial aid representative, the position remained vacant for over three weeks. Once the position was filled the individual did not know how to fill out the forms. It took the school three and a half months before they could find someone to do it and once they showed up it took them minutes to fill them out. Conner noted that he was the individual that drafted the letter of grievances. He shared that he has not been able to raise the president for meetings since the troubles have started. Hot water is not present in the clinic. There is no process for any grievances being addressed. Tuition rates were hiked up soon after the students were assured that they would stay the same. Chair Brewer thanked the students for their testimony and asked that the school administration representatives approach the Board.

Chair Brewer asked what the administration has done since the November Meeting to address the Board's Concerns. Mike Kim, English Director at Dong-Guk University, responded that there were many false statements made by the students. He stated that he is the individual who did all the transfer credit evaluations for all transfer students as well as any transfer students that came to DULA. According to the teach out agreement those students will follow Samra's requirements to graduate and all others are to follow DULA's. The first two to three weeks of his employment at DULA Mike Kim said that he worked on Transfer credit evaluations. He noted that with David Johnston's case DULA had 4 extra courses that Samra did not offer that DULA required namely pediatrics.

Chair Brewer asked about the reduction of the number of English classes offered by English instructors restricting the students access to classes. Mike Kim responded for the winter 2011 quarter the English program offered close to thirty classes with Samra offering less. The current spring quarter is offering close to forty courses in English. DULA implemented a new regulation with the winter quarter limiting all instructors to teach a maximum of four courses regardless of language. Member Weisman asked why the school has been inconsistent with the requirement criteria for the students. Mike Kim responded that some students were close to the teach-out qualifications which could lend to the confusion. There were discrepancies between Samara's and DULA's course requirements but no one lost any units in the transfer other than one case where a student took two courses at Samra that DULA offers as one, losing two units of the original five taken at Samra. Mike shared that he meets seven to eight students per day. Member Weisman stated that he wants to insure that the students know what is required of them to graduate.

Member Lee asked about the financial aid issues the students mentioned. Mike Kim responded that he does not have access to that information and would not be able to respond.

Chair Brewer asked what DULA is doing to bolster communication with the students and their feeling disenfranchised. Mike Kim responded that whether the students are from DULA or from Samra they are all his students. Member Kim asked how the school can maintain stability when the administration is appointed by the parent organization in Korea that is not familiar with California's standards. Mike responded that there are indeed cultural differences present and DULA is aware of that and works with that. Addressing the Chair's question he stated that he does not believe that there is a communication problem with the English program. TJ stated that there were Samra transfer students into each of the three language tracks at DULA. He noted that this morning he and Janelle Wedge agreed that DULA would use David Lee's transfer criteria for all of Samra's transfer students. Mike Kim noted that even with these criteria it does not change the students credits transferred. Member Weisman asked that the Board consider the idea of degree audits. Janelle Wedge stated that David Johnston isn't the only transfer student with transfer problem. Member He asked Mr. Johnston to speak to the issue. Student David Johnston stated that many students are afraid of coming forward. He shared that there are many changes between what was once accepted as transfer credit what ends up being accepted. The transfer evaluations are indeed negotiations. Chair He asked when the date of the graduation exam was picked. Mike Kim responded that it was chosen a long time ago. Member Wedemeyer stated that cooperation is required between both the students and the school as this issue has been going on far too long. David Johnston stated that the school needs to honor the agreement regarding the bringing of instructors from

Samra. Chair Brewer stated that DULA still has a way to go with honoring the agreement that DULA made with Samra even though this administration didn't enter into that agreement. This issue needs to be solved and the school needs address any financial responsibilities it may have to the students if there is need for redress. Education Coordinator Benjamin Bodea asked Mike Kim that he had stated that the date of the graduation exam at the beginning of the quarter. When was the beginning of the Quarter? Mike Kim responded that it was January third. Ben clarified that this was after the dates of the next Board meeting was set at the November meeting. Member He stated that was his concern. Chair Brewer stated that it will be taken as coincidental.

e. Statutory Change Setting Time Limit for Schools Reapplying for Approval.

Member Kim stated that he raised this issue since schools that are denied approval can come back at the next meeting for approval again. He suggested that schools be given a year to fix their issues before being able to come back to the board. Member Wedemeyer shared that Steve Stumpf has drafted some criteria for school approval that he can send to Janelle to review before the next meeting addressing this issue. Janelle Wedge agreed to look at it noting that the Board's authority is the training program and to look at approval of the entire school would take regulatory change but she will look at the suggestions to draft language. Steve Stumpf presented to the Board criteria he felt should be including pass rates of graduates. This would also bring conditions to currently approved maintaining their approval by requiring a minimum pass rate for a school's students. Liza Goldblatt asked that material be shared with the public. Chair Brewer stated that the item was moved as a future agenda item. Neil Miller asked that these issues be discussed in committees.

12. Examination Business

a. February 10, 2011 Examination

No further discussion

b. Book Resource List

Janelle Wedge that the book list is a resource list that is used by subject matter experts in developing examination questions. She noted that she had information from OPES that states 'the consensus is that most of the Boards and Bureaus do not post reference lists for their candidates whatsoever'. They still have reference lists but it is for internal reference only. Hugh Morrison of the National Guild of Acupuncture and Oriental Medicine shared a letter he had written with the Board that the Board consider the use of scientific texts and not include energetic systems. Elizabeth Elsy, student president at Five Branches University, stated that the book list serves an important purpose and helps determine the curriculum of the schools themselves. She suggested that a group within the Board be formed to determine the criteria w/administrators to cover the appropriate information. Chair Brewer asked if the Board can just post the reference list on the website. Janelle Wedge responded that she wanted to continue quoting OPES' recommendation that, 'we do not recommend that Boards posting reference lists. By doing so the Board gives the appearance of endorsing the books as the best in the industry which is not always the case. Books are approved strictly to support what SME's determine to be correct answer to an item. The items are supported by references and content validation by SMEs. Posting can also be harmful because it can suggest that if a candidate purchased all the references on the list and study them they would pass the exam. DCA legal has supported our position on this and has made recommendations to the Boards against publishing reference lists.' Greg Sperber of PCOM noted educators should be used as SME's as they stay abreast of the material used in the practice and that a published booklist would be a valuable asset. Hugh Morrison suggested the use of the Medical Treatment Utilization Schedule. Chair Brewer stated that the Board needs to take a look at the list and its relevance if it's to be published.

c. Educators as Subject Matter Experts

Chair Brewer noted that there is currently a prohibition on educators being Subject Matter Experts. Ted Priebe asked what are the criteria for SME selection. Janelle noted that there the Board first screens the applicants for disciplinary and license status and then OPES takes over. Jacque Mora Marco stated that the selection process for SME's should take from western medicine for those portions the exam. Liza Goldblatt noted that other public health fields do not have a prohibition on educators being SMEs. Steve Stumpf noted that SMEs should be optimally qualified not minimally qualified. . Paul (?) Demonet, Academic Dean at PCOM, stated that faculty were prohibited due to security issues with the exam in the past and the public and

profession should no longer have to suffer for one individual's act of selling answers to segments of the community. This security issue will continue to be possible but there are ways to compensate for that. Schools are responsible for entry level competence not expertise. James Kim shared that the Board is always looking for new SMEs and that practitioners should take advantage of that. Greg Sperber asked that the Board agendize allowing educators as Subject Matter Experts.

13. Enforcement Business

a. Enforcement Case reports

Enforcement Coordinator Kristine Brothers presented the report to the Board. She noted that the update is from July 1, 2010 to January 31, 2011. She also presented the CPEI and the performance measures the department has regarding enforcement.

b. Enforcement Committee Formation

Chair Brewer stated that an Enforcement Committee will be formed that will talk with the department and other Boards' Enforcement Committees and report to the Board. Paul Wiesman, Robert Brewer and Frank He have agreed to be on the committee. They will report to the board at the next meeting.

c. Possible Statutory Changes Concerning Scope of Practice for Acupuncturists

To be discussed by the Blue Ribbon Panel and brought to next meeting (?)

d. Dry Needling

Ted Priebe shared that there is no difference between dry needling and acupuncture with the exact same physiological mechanisms. There is no evidence to show that it is any different. Chair Brewer then asked if the Board is being asked to include this as a part of the definition of Acupuncture. Ted Priebe affirmed. Ben Kavoussi stated that he contact the Board of Physician Assistants and confirmed that they are allowed to use needles as long as it is within their scope of practice. Neil Miller asked the Board to make the consumer aware that this is within the scope of practice of Acupuncturists. Member Lee stated that the Board needs to attend to the differing definitions since this issue keeps coming up. He also noted that the term TCM no longer refers to just the twelve meridians it's just it's the most recognized term. Bill Mosca noted that Dry needling is not a legal term in the state of California.

e. Cupping and Moxibustion by Unlicensed Practitioners

Deferred to the Enforcement Committee.

f. Disability Evaluations in Workers Compensation System

Ted Priebe stated that in CA under the Work Comp system is determined by a Judge. Acupuncturists determine impairment. He noted that impairment is still a grey area. Neal Miller brought this up because there is a shortcoming in an Acupuncturist's education that prepares them to treat our injured workforce and it's been part of the labor code of California and it is a shortcomings. He pointed out that several bills have attempted statutorily to remove this problem. He would like to see the Board specifically address issues of participating at the level practitioners are allowed to for the purpose of work comp.

14. Future Agenda Items

Member Wedemeyer wants to address the primary care issue at the next meeting. Member Lee would like progress report from the Blue Ribbon Panel. Member Kim wanted to see all the decision that were made in 2009 and 2010 and the status of those decisions. He also wants to discuss a pilot program of integrative care he's involved in. Ted Priebe asked to discuss the exam issue in relation to pass rates obtained from the Guild. A DULA student asked that DULA progress report be provided at the next meeting. Ben Kavoussi asked to agendize bear bile procured from captive bears that are being farmed for their bile. Elizabeth Goldblatt asked to re-agendize educators as SMEs. Hugh Morrison asked to agendize the board to publishing workforce data.

15. Public Comment

Neal Miller shared that he has begun to put together archives of past decisions of the Board. He has asked for help from the public in this endeavor to fill in the blanks. Steve Stumpf stated that legal opinions have no authority and that the Board regulates licensees and schools. Next meeting will be May 18th.

16. Adjournment

Chair Brewer adjourns the meeting at 5:45pm.

DRAFT

ACUPUNCTURE BOARD

Executive Officer's Report

Agenda Item: 8.0
Date: August 2011

- **Board Updates**

The Board still has three vacant positions. Two of those vacancies are our front line phone positions, which has had a significant adverse impact on the entire office. A hiring freeze is still in effect so I have submitted a freeze exemption request to fill at least the licensing position. I have not yet heard whether the request has been approved or denied.

It is anticipated the Board's relocation to the new building at DCA headquarters will occur in October. DCA Facilities Management Unit continues to work with board staff to finalize the details of the move. Staff is currently in the process of identifying what is to be moved and what is to be surveyed. Over the next two months staff will be working to clean out and organize shared areas within the office as well as their own cubicles/offices.

Pursuant to a request, I have enclosed a report which lists motions made by the Board over the last two years and what has occurred as a result of those motions. I have only included motions which required staff action. Motions such as approving a school, adopting a mail vote, etc. are not included in this report.

- **DCA Update**

Kimberly Kirchmeyer Deputy Director for Board / Bureau Relations accepted an offer by the Medical Board to re-join their executive team as Deputy Director effective June 2, 2011. Kim has been a valuable member of the executive team since her appointment by the former Governor in November 2009. Kim was instrumental and played a key role for many of the achievements we have gained over the past 18 months. Kim's vast knowledge and experience in program matters helped all 37 boards, bureaus, and programs improve their daily operations, policy making, and overall board governance. Kim's professionalism, work ethic, and integrity are unmatched and worthy of emulation. Additionally, since January, Kim willingly assumed the added duties of Acting Chief Deputy in addition to her incredibly heavy workload.

LaVonne Powell, former legal counsel to the Board, retired from the state at the end of June.

- **Budget Update**

Enclosed is a 2010-11 year-end expenditure report. Also enclosed is an analysis of our fund condition which reflects the \$5 million dollar loan from our reserves. We will have to keep a close watch on our budget over the next couple of years as there is a dramatic decrease in our reserves.

- **Travel Restrictions**

As you are aware, on April 26, 2011 the Governor's Office issued Executive Order B-6-11 regarding discretionary travel. The Executive Order stated that all discretionary travel is prohibited. All in-state non-discretionary travel must be approved by Agency Secretaries or Department Directors who do not report to an Agency Secretary. All out-of-state travel must be approved by the Governor's Office.

No travel, either in-state or out-of-state, is permitted unless it is mission critical or there is no cost to the state. Mission critical means travel that is directly related to:

- Enforcement responsibilities.

- Auditing.

- Revenue collection.

- A function required by statute, contract or executive directive.

- Job-required training necessary to maintain licensure or similar standards required for holding a position.

Mission critical does not mean travel to attend:

- Conferences (even those that historically have been attended).

- Networking opportunities.

- Professional development courses.

- Continuing education classes and seminars.

- Non-essential meetings that can be conducted by phone or video conference.

- Events for the sole purpose of making a presentation unless approved by the Department Director.

No travel is permitted for more than the minimum number of travelers necessary to accomplish the mission-critical objective. This restriction applies even when there is no cost to the state.

- **CHARLES MOTIONED TO LIMIT THE NUMBER OF ATTEMPTS BE PUT AT FIVE OPPORTUNITIES AND IF A SIXTH ATTEMPT IS MADE THAT THE APPLICANT MUST ENROLL AND FINISH A BOARD APPROVED REMEDIAL PROGRAM TO TAKE THE EXAM AGAIN. IF THE SIXTH ATTEMPT IS FAILED THEN THEY MAY NOT TEST AGAIN. PAUL WEISMAN SECONDED. VOTE: 5 – 0 – 0 MOTION PASSED**

The Board was advised by legal counsel that this would require a legislative change. An author has not been found to carry this legislation.

- **CHARLES KIM MOTIONED TO DIRECT THE EXECUTIVE OFFICER TO SEEK OUT-OF-STATE TRAVEL APPROVAL. IF SHE IS SUCCESSFUL, THE BOARD IS TO CARRY OUT A SITE VISIT, IF NOT APPROVED THE BOARD IS TO NOTIFY THE SCHOOL THAT THE BOARD CANNOT COMPLETE THE APPLICATION PROCESS. PAUL WEISMAN SECONDED. VOTE: 5 – 0 – 0 MOTION PASSED**

Every year the Executive Officer has submitted out-of-state travel requests which have all been subsequently denied. All affected schools were notified.

- **CHARLES KIM MOTIONED TO DELEGATE TO THE EXECUTIVE OFFICER TO REVIEW THE EXISTING TRANSCRIPTS AND MAKE DETERMINATIONS IF THERE ARE ANY DEFICIENCIES TO NOTIFY THE APPLICANTS' ATTORNEY AND IF THEY IN FACT MEET THE EDUCATION REQUIREMENTS THAT THE OTHER CANDIDATES FROM THE SCHOOL HAVE THAT THEY BE ALLOWED TO TAKE THE EXAM. Acupuncture Board
RECEIVED
MAY 11 2011

Memorandum

To: Boards Subject to Review in 2011-12

From: Senator Curren D. Price, Jr.

Date: May 10, 2011

Subject: Request for Information and Issues to be Addressed for 2011-12 Oversight Review

This is to inform you that the Senate Committee on Business, Professions and Economic Development (Committee) will begin its oversight review of the following boards in the fall of 2011:

- ✓ Acupuncture Board
- Board of Behavioral Sciences
- Chiropractic Board
- Court Reporters Board
- Pharmacy Board
- Physical Therapy Board
- Physician Assistant Committee
- Podiatric Medicine Board
- Psychology Board

You will receive separately by email a Report Form that should be completed and submitted to the Committee by November 1, 2011. The Report has been significantly revised from the Report used by the Committee in prior years. The revisions are intended to simplify the reporting process for the boards, and focus more clearly on issues of interest to the Committee. The first sections of the Report provide an overview of the board's current regulatory program, and gives pre-formatted tables and charts to be filled in by the board. The latter sections focus on responses by the board to

particular issues that are raised by the Committee or that are raised by the individual board.

We ask that you complete the tables and charts and provide the appropriate statistical information for the fiscal years indicated. In the event that some information may not pertain to your particular board, please note it on your response, but please be sure to include information that is relevant to your activities and programs.

In completing your Report, please note the following sections:

Section 10 – Board Action and Response to Prior Sunset Issues. This should reflect the board's response to each individual issue and recommendation that was raised by the Committee during the prior review of the board.

Section 11 – New Issues. The Committee may have additional issues that the board will have to address during this review. The board also has an opportunity to raise new issues and make recommendations to the Committee within this section. We encourage the board to request a meeting with Committee staff to review possible issues to be addressed within this document for the 2011 review.

Along with the Report Form, you are also being sent a Guide to complete the tables in the Report. Most of the tables may be completed from data in standard reports that the board already receives. If your board does not use the Department's report and data processes, please report information using the definitions given in the Guide.

Each board should submit 15 printed copies of its final Report to the Committee, and also submit an electronic copy to the Committee (you may submit a PDF version, but we also request a MS-Word copy).

Committee staff will be responsible for investigating and analyzing information provided by the board, and then preparing a background paper with issues to be addressed by the board and, when possible, preliminary recommendations for the board and interested parties to consider during our public hearings to be held early in 2012.

We expect to announce the dates for the hearings sometime in December. We would like to request that once the hearing dates are set that the board send out letters of interest (by mail or email) to your mailing list of organizations, groups, or individuals who would be interested in attending the Committee's public hearings.

If you have any questions about the attached documents or the review process, please contact G. V. Ayers of my staff at (916) 651-4104.

30. What do overall statistics show as to increases or decreases in disciplinary action since last review.
31. How are cases prioritized? What is the board's compliant prioritization policy? Is it different from DCA's model? If so, explain why.
32. Are there mandatory reporting requirements? For example, requiring local officials or organizations, or other professionals to report violations, or for civil courts to report any actions taken against the licensee. Are there problems with receiving the required reports? If so, what could be done to correct the problems?
33. Does the board operate with a statute of limitations? If so, please describe and provide citation. If so, how many cases were lost due to statute of limitations? If not, what is the board's policy on statute of limitations?

Cite and Fine

34. Discuss the extent to which the board has used its cite and fine authority. Discuss any changes from last review and last time regulations were updated. Has the board increased its maximum fines to the \$5,000 statutory limit?
35. How is cite and fine used? What types of violations are the basis for citation and fine?
36. How many informal office conferences, Disciplinary Review Committees reviews and/or Administrative Procedure Act appeals in the last 4 fiscal years?
37. What are the 5 most common violations for which citations are issued?
38. What is average fine pre and post appeal?
39. Describe the board's use of Franchise Tax Board intercepts to collect outstanding fines.

Cost Recovery and Restitution

40. Describe the board's efforts to obtain cost recovery. Discuss any changes from the last review.
41. How many and how much is ordered for revocations, surrenders and probationers? How much do you believe is uncollectable? Explain.
42. Are there cases for which the board does not seek cost recovery? Why?
43. Describe the board's use of Franchise Tax Board intercepts to collect cost recovery.
44. Does the board have legal authority to order restitution? If so, describe the board's efforts to obtain restitution for individual complainants, the board's formal restitution program, and the types of restitution that the board attempts to collect, i.e., monetary, services, etc. Discuss any changes since last review.

60. Describe the board's efforts to comply with OSHPD data collection efforts.
61. Describe the board's efforts to address unlicensed activity and the underground economy.
62. Does the board send No Longer Interested notifications to DOJ on a regular and ongoing basis? Is this done electronically? Is there a backlog? If so, describe the extent and efforts to address the backlog.

Section 10 – Board Action and Response to Prior Sunset Issues

Include the following:

1. Background information concerning the issue as it pertains to the board.
2. Short discussion of recommendations made by the Committee/Joint Committee during prior sunset review.
3. What action the board took pursuant to the recommendation or findings made under prior sunset review.
4. Any recommendations the board has for dealing with the issue.

Section 11 – New Issues

List new issues raised in this report. Give a short discussion of the issues, recommendations, or actions which could be taken by the board, Department of Consumer Affairs, or Legislature to deal with issues discussed in this report, i.e., legislative changes, policy direction, budget changes.

1. New issues raised by the Committee to be addressed by the board in this report.
2. New issues identified by the board that are previously addressed in this report or by prior Sunset Review. Include new proposals for legislation, policy direction or budget changes.

Section 12 – Attachments

Please provide the following attachments:

- A. Board's administrative manual
- B. Current organizational chart showing relationship of committees to the board and membership of each committee
- C. Major studies, if appropriate
- D. Year-end organization charts for last four fiscal years. Each chart should include number of staff by classifications assigned to each major program area (licensing, enforcement, administration, etc.)
- E. Board's records retention schedule.

Performance Measures

Annual Report (2010 – 2011 Fiscal Year)

To ensure stakeholders can review the Board's progress in meeting its enforcement goals and targets, we have developed a transparent system of performance measurement. These measures are posted publicly on a quarterly basis.

This annual report represents the culmination of the first four quarters worth of data.

Volume

Number of complaints and convictions received.

The Board had an annual total of 223 this fiscal year.

Intake

Average cycle time from complaint receipt, to the date the complaint was assigned to an investigator.

The Board has set a target of 10 days for this measure.

Intake & Investigation

Average cycle time from complaint receipt to closure of the investigation process. Does not include cases sent to the Attorney General or other forms of formal discipline.

The Board has set a target of 200 days for this measure.

Formal Discipline

Average number of days to complete the entire enforcement process for cases resulting in formal discipline. (Includes intake and investigation by the Board, and prosecution by the AG)

The Board has set a target of 540 days for this measure.

Probation Intake

Average number of days from monitor assignment, to the date the monitor makes first contact with the probationer.

The Board has set a target of 10 days for this measure.

Probation Violation Response

Average number of days from the date a violation of probation is reported, to the date the assigned monitor initiates appropriate action.

The Board has set a target of 10 days for this measure.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and stockholders of
Golden State University, Inc.
Downey, California

We have audited the accompanying balance sheet of Golden State University, Inc. (a California Corporation) as of December 31, 2010, and the related statements of income, retained earnings, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Golden State University, Inc. as of December 31, 2010 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The Schedule of Operating Expenses on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1 - GENERAL

Golden State University (GSU) is a California corporation that was formed on June 23, 2008 and is located in Downey, California.

The GSU is a vocational school that is specialized in acupuncture and oriental medicine.

With educational courses of traditional Chinese medicine integrated with western medical technology, the GSU prepares students for a career as healthcare providers and develops their intellectual and analytical abilities. It also provides job opportunities and an academic environment for faculty to further their studies in their respected fields and an institution of healthcare education.

The GSU provides a clinical center to the community and will offer internships to students.

The Institution received initial approval to grant degrees from the former Bureau of Private Postsecondary and Vocational Education (BPPVE) in April 2006 and has applied to and been waiting for the approval from the Bureau for Private Postsecondary Education (BPPE).

The courses are listed as follows:

Master of Science in Asian Medicine
Continuing Education training for licensed acupuncturists

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Institution have been prepared on the accrual basis of accountings and accordingly reflect all significant receivable, payables, and other liabilities.

Property and Equipment

Properties and equipment are recorded at cost and depreciated using double declining balance method over estimated useful lives of 10 years.

Maintenance and repairs are charged to operations when incurred. Betterments and renewals that extend the useful lives of property and equipment are capitalized. When property and equipment are sold or otherwise disposed of, the asset account and related accumulated depreciation account are reduced, and any gain or loss is included in operations. Depreciation expense amounted \$2,000 for the year ended December 31, 2010.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and disclosed in the accompanying notes. Actual results could differ from those estimates.

GOLDEN STATE UNIVERSITY, INC.

**NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2010**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tuition Receivable & Allowance for Doubtful Accounts

Tuition receivable represent amounts due for tuition and fees from currently enrolled and former students. Tuition receivables are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on past experience which is 5% of its outstanding receivables that will become uncollectible without identifying specific accounts. It is referred to as balance sheet approach or the percentage of receivables. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to tuition receivable. The allowance for doubtful accounts was \$411 at December 31, 2010 and bad debt expenses was \$411 for the year ended December 31, 2010. Changes in the valuation allowance have not been material to the financial statements.

Credit Risk

Financial instruments which potentially subject the Institution to concentrations of credit risk consist principally of cash and receivables. The Institution places cash in high credit quality financial institutions, which limits the amount of credit exposure. Concentrations of risk with respect to receivables is limited due to the diversity of the population of students. The Institution's management does not believe significant credit risks at December 31, 2010.

Revenue Recognition

Revenue and expenses are recorded on the accrual basis. Revenue received for future education instruction is deferred until the applicable term.

Income Taxes

The Institution uses the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to be applied to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

NOTE 3 - CASH

Cash consists of the following:

Cash in bank - Bank of America - Checking	<u>2010</u>
Cash in bank - Bank of America - Savings	\$ (3,652)
Cash on hand	1,020

POLICY

It is the policy of the Department of Consumer Affairs (DCA) that board members, committee members, and instructors not serve as expert consultants in the licensure examination development process.

APPLICABILITY

This policy applies to all employees, governmental officials, consultants, and temporary staff of DCA; and any of its divisions, bureaus, boards, committees and other constituent agencies. Within this policy, the generic acronym "DCA" applies to all of these entities.

PURPOSE

The purpose of this policy is to set forth the restrictions and principles related to participation in the licensure examination development process.

A licensure examination serves a regulatory purpose by ensuring that each candidate who successfully passes an examination for a given profession is qualified to practice in that profession.

Expert consultants are essential to the development of licensure examinations. Their participation ensures that the examinations accurately assess whether candidates possess the minimally acceptable knowledge, skills, and abilities necessary to perform tasks on the job safely and competently. Therefore, the selection of expert consultants by boards, bureaus, and committees critically affects the quality and defensibility of their licensure examinations.

AUTHORITY

Business and Professions (B&P) Code sections 101.6, 123, and 139.

DEFINITIONS

For purposes of this policy, the following definitions apply:

Board members are defined as people who are appointed to a regulatory board, commissioners, exam committee members, and/or other committee members appointed to serve in an advisory capacity to a board or bureau within the statutory authority of the Director of the Department of Consumer Affairs.

An **instructor** is defined as any teacher, trainer, mentor, or other person engaged in formal or informal instruction to candidates for licensure in a profession AND who has a personal and/or financial interest in increased pass rates for his or her student(s) and/or the training institution for which he/she is employed.

An **expert consultant** is defined as a person whose services are retained for, among other tasks, developing, but not proctoring, professional licensing examinations. An expert consultant is a person who actively works in the target profession, has a current license in good standing by the State of California, meets established selection requirements, and is able to articulate specialized technical knowledge related to their profession. In licensure examination development work, expert consultants are referred to as Subject Matter Experts.

PROVISIONS

Due to potential conflict of interest, undue influence, and/or security considerations, board members, and instructors, as defined above, shall not serve as expert consultants for, nor participate in, any aspect of licensure examination development or administration.

In consultation with the relevant board(s); licensure examination developers will determine any exceptions on a case-by-case basis. For instructor participation in examination development workshops, those exceptions will be based on, but not limited to, the following factors:

- Number of hours spent as a licensee relative to the number of hours spent as an instructor;
- Size of the pool of qualified licensees available to attend workshops;
- Availability of licensees for attending workshops; and
- Existence of a licensing/accrediting relationship between the board, bureau, or committee and training schools.

VIOLATIONS

With the concurrence of the relevant board(s) and the approval of management, licensure examination developers will dismiss any expert consultant selected by any board, bureau, or committee who does not meet the provisions of this policy.
