DISCIPLINARY ORDER

IT IS HEREBY ORDERED that Acupuncture License No. AC 292 issued to Respondent Bong Dal Kim is revoked. However, the revocation is stayed and Respondent is placed on probation for seven (7) years on the following terms and conditions.

1. ACTUAL SUSPENSION As part of probation, respondent is suspended from the practice of acupuncture for 30 days beginning with the effective date of this decision.

2. PRACTICE MONITOR Within 90 days of the effective date of this decision, Respondent shall submit to the Board for its prior approval, the name and qualifications of one or more California licensed acupuncturists whose license is clear (no record of complaints) and current and who has agreed to serve as a practice monitor. Once approved, the monitor shall
submit to the Board a plan by which Respondent's practice shall be monitored for the first three years of Respondent's probationary period. The monitor's education and experience shall be in the same field of practice as that of the Respondent. The monitor shall submit written reports to the Board on a quarterly basis verifying that monitoring has taken place and providing an evaluation of Respondent's performance. It shall be Respondent's responsibility to assure that the required reports are filed in a timely fashion. The Respondent shall provide access to the monitor of Respondent's fiscal and client records and shall be permitted to make direct contact with patients. Further, the monitor shall have no prior business, professional, personal or other relationship with Respondent. Respondent shall execute a release authorizing the monitor to divulge any information that the Board may request.

Respondent shall notify all current and potential patients of any term or condition of probation which will affect their treatment or the confidentiality of their records (such as this condition which requires a practice monitor). Such notification shall be signed by each patient prior to continuing or commencing treatment.

If the monitor quits or is otherwise no longer available, Respondent shall not practice until a new monitor has been approved by the Board. All costs of monitoring shall be borne by the Respondent. Monitoring shall consist of at least one hour per week of individual face to face meetings.

3. REIMBURSEMENT FOR PROBATION SURVEILLANCE MONITORING

Respondent shall reimburse the Board for the hourly costs it incurs in monitoring the probation to ensure compliance for the duration of the probation period.

4. COURSEWORK Respondent shall take and successfully complete not less than eighty (80) hours of coursework which the Board’s probation monitor approves. All coursework shall be taken at the graduate level at a school approved by the Board’s probation monitor. Classroom attendance must be specifically required. Course content shall be pertinent to the violation and all coursework must be completed within the first 3 years of probation. The required coursework must be in addition to any continuing education courses that may be required for license renewal.
Within 90 days of the effective date of this decision, Respondent shall submit a plan for the Board's prior approval for meeting the educational requirements. All costs of the coursework shall be borne by the Respondent.

5. COMMUNITY SERVICE  Respondent shall provide 350 hours of acupuncture services without charge, nor may Respondent charge for products used during his acupuncture services. Respondent must submit written proof of his community service hours to the Board’s assigned probation surveillance monitor on a regular basis as directed by the Board. Respondent’s community service hours must be completed and accepted by the Board’s assigned probation surveillance monitor no later than 180 days prior to the conclusion of Respondent’s probationary period.

6. OBEY ALL LAWS  Respondent shall obey all federal, state and local laws and all regulations governing the practice of acupuncture in California. A full and detailed account of any and all violations of law shall be reported by the respondent to the Board in writing within seventy-two (72) hours of occurrence.

7. QUARTERLY REPORTS  Respondent shall submit quarterly declarations under penalty of perjury on forms provided by the Board, stating whether there has been compliance with all the conditions of probation.

8. INTERVIEW WITH THE BOARD OR ITS DESIGNEE  Respondent shall appear in person for interviews with the Board or its designee upon request at various intervals and with reasonable notice.

9. CHANGES OF EMPLOYMENT  Respondent shall notify the Board in writing, through the assigned probation surveillance compliance officer of any and all changes of employment, location and address within 30 days of such change.

10. TOLLING FOR OUT-OF-STATE PRACTICE OR RESIDENCE  In the event Respondent should leave California to reside or to practice outside the State, Respondent must notify the Board in writing of the dates of departure and return. Periods of residency or practice outside California will not apply to the reduction of this probationary period.

11. COST RECOVERY  Respondent shall pay to the Board its costs of investigation and
enforcement in the amount of $17,888.00. This amount shall be paid in full, directly to the Board within six (6) months prior to the termination date of probation. Cost recovery will not be tolled.

Respondent understands that failure to timely pay costs is a violation of probation, and submission of evidence demonstrating financial hardship does not preclude the Board from pursuing further disciplinary action. However, Respondent understands that providing evidence and supporting documentation of financial hardship may delay further disciplinary action.

Consideration to financial hardship will not be given should Respondent violate this term and condition, unless an unexpected AND unavoidable hardship is established from the date of this order to the date payment(s) is due.

12. VIOLATION OF PROBATION If Respondent violates probation in any respect, the Board may, after giving Respondent notice and the opportunity to be heard, revoke probation and carry out the disciplinary order that was stated. If an accusation or petition to revoke probation is filed against Respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final. No petition for modification or termination of probation shall be considered while there is an accusation or petition to revoke probation pending against Respondent.

13. COMPLETION OF PROBATION Upon successful completion of probation, Respondent's license will be fully restored.

Factual Summary

12. Respondent is the founder of Emperor's College Acupuncture and is the chief acupuncturist at the school's clinic. On or about February 3, 2011, patient Dalia D.\(^1\) died at Emperor's College Acupuncture clinic. Patient D. began treatment with Respondent, at Emperor's College in October 2010, when she presented with a primary complaint of numbness of the feet. Patient D. suffered other health issues which included only one (1) functioning, albeit infected lung, chronic cough, shortness of breath and difficulty breathing, asthma, rapid heartbeat, poor appetite, fatigue, depression, and anxiety.

The following clinic student assistants and intern were also involved with patient D.'s care: Ms. J., Ms. B., both assistants, and the intern, Mr. B. There are no records which specify the time patient D. arrived at the clinic on or about February 3, 2011, nor do the patient’s records fully and clearly convey what each assistant and the intern did with regard to patient D.’s care on this date.

13. According to Ms. B., a student assistant under Respondent’s supervision, on or about February 3, 2011, patient D. complained more than was usual about experiencing labored

breathing, poor/minimal sleep, no appetite, back pain, and weight loss. The patient arrived at the clinic with an anxiety attack which had begun prior to treatment.

Ms. B. performed the intake assessment on patient D. assisted by student assistant Ms. J. However, neither student assistant recorded results for patient D.'s blood pressure in the patient’s medical records. Based on her observations, Ms. B. believed the level of distress patient D. was experiencing during the intake assessment was "more than usual," and reported her assessment to Respondent. Respondent interviewed patient D. and then proceeded with her acupuncture treatment. After inserting the acupuncture needles Respondent left the room. Ms. B. and Ms. J. prepared patient D. for rest after the insertion of the needles and then stepped out of the room.

14. According to Ms. B., a few minutes after the student assistants left the treatment room, patient D. requested someone to return and remain in the room with her, and Ms. J. went into the patient’s room. When Ms. B. returned to check on patient D. the patient reported feeling uncomfortable. Ms. B. believed the patient was having a panic attack, as the patient was exhibiting increased, labored breathing, and restlessness. The patient attempted to sit up while Ms. B. went to alert Respondent to the patient’s condition. Respondent returned to the treatment room, and, according to Ms. B., removed some needles from the patient, calmed patient D. and permitted the acupuncture treatment to continue. Ms. B. said patient D. refused to have 911 called. Ms. B. left patient D. at the end of her shift at 1:00 p.m.

15. Ms. J. and Ms. Bs' reports are not consistent as to the sequence of events after Patient D. sat up. During her description of what occurred on or about February 3, 2011, Ms. J. stated that after Ms. B. left the room patient D. attempted to sit up with needles still inserted in various parts of her body. According to Ms. J., although she was a student assistant, with no training, experience, or authorization to remove needles, and during this time was not being supervised by a licensed acupuncturist, she nonetheless removed an unknown number of the acupuncture needles from the patient to enable her to sit upright without experiencing injury.

Both Ms. J and Ms. B stated Respondent did return to the patient’s treatment room, but their accounts of Respondent’s action differ. Ms. B. stated Respondent "removed some of the
"acupuncture needles" and continued the patient’s acupuncture treatment. As previously stated, Ms. J. said she removed the needles from patient D. after which she calmed patient D. During the police investigation into the events surrounding patient D.’s death Ms. J. also said patient D. attempted to urinate as Ms. J. took the patient to the bathroom, but instead defecated on the floor and toilet.

16. Further reports indicate that at 1:45 p.m. patient D. was lucid, conscious, but was having difficulty breathing. After 2:00 p.m., patient D.’s pulse became weak and she began to lose consciousness, so 911 was called. Prior to the arrival of emergency services patient D. lost consciousness, was non responsive, and the patient’s pulse could not be located. CPR was performed on the patient by emergency services as soon as they arrived. Patient D. was transported by emergency personnel to a nearby hospital where she arrived in full cardiac arrest, and died shortly thereafter.

17. Respondent's statements to the police are inconsistent in a number of areas with the student assistants' statements as well as with his statement to the Board. Respondent admitted leaving the clinic to go to lunch in the cafeteria at 1:30 p.m., but made inconsistent statements about where he was and what time it was when he became aware of the arrival of emergency personnel. Respondent failed to mention being aware of patient D.’s attempted urination and defecation on the floor and toilet. In addition, student notes with regard to patient D.’s physical condition were not signed off by Respondent, and he did not appear to be aware of the information the notes contained.

**Standard of Care**

18. The applicable standard of care requires that a licensed acupuncturist must directly supervise student interns when the student interns perform an acupuncturist’s duties. Student assistants are not trained, experienced, or authorized to perform any of the duties of an acupuncturist, most particularly those which involve handling needles. The licensee is liable for the care provided by the trainees under his supervision.
19. The applicable standard of care requires a licensed acupuncturist ensure that another
licensed acupuncturist consult with the original acupuncturist with regard to the patient’s
condition when the original acupuncturist leaves the clinic site.

20. The applicable standard of care requires a licensed acupuncturist ensure that a student
intern be present with the patient to provide continuous care for a patient who is in distress until
the patient is discharged from the acupuncture clinic.

21. The applicable standard of care requires a licensed acupuncturist be aware of his
patient’s condition if he leaves the patient after performing treatment.

22. The applicable standard of care requires that a licensed acupuncturist review and sign
all notes and/or reports a trainee or student assistant or intern prepares about a patient’s care and
condition.

FIRST CAUSE FOR DISCIPLINE
(Repe ted Negligent Acts )

23. Respondent is subject to disciplinary action under 4955.2, subsection (b) and
California Code of Regulations, title 16, section 1399.426, subsections (a),(b),(c) in that
Respondent committed repeated negligent acts in his care and treatment of his patient. The
circumstances are as follows:

24. Complainant refers to and, by reference incorporates herein paragraphs 12-17
inclusive, above as though fully set forth here.

25. Respondent committed a simple departure from standard of care when he was not in
the patient’s treatment room to directly supervise the student assistants and/or the student intern
during the patient’s care. Treatment of a patient begins at the moment of intake until the patient
leaves the clinic. Respondent was the supervising acupuncturist and failed to supervise the care
given to patient D. by the two student assistants and student intern throughout the duration of the
patient’s treatment. A practitioner must be responsible for the patient’s care and available on site
until a patient is discharged from the treatment room. As detailed above, it is unclear from the
various interviews and unsigned reports whether Respondent was present and/or available
throughout Patient D.’s treatment. The patient’s records do not reflect with certainty that
Respondent removed all of the needles from the patient prior to his departure from the clinic for lunch.

26. Patient D.'s obvious distress throughout the time she began treatment is another circumstance which required Respondent, to remain with the patient throughout her treatment, instead of leaving the patient in the care of student assistants and/or an intern. Student assistants are not equipped with the training, experience, or authorization to be responsible for patient care in these circumstances. After Ms. B., the student intern, left the treatment room there is no evidence that another student intern under Respondent's supervision was present to assist with patient D.'s care. This is a simple departure from the standard of care.

27. Respondent's failure to remain in the clinic throughout Patient D.'s treatment is a simple departure from standard of care. Patient D. was left in the care of inexperienced, student assistants when Respondent went to lunch. The supervisor must be in the same facility as, and in proximity to, the location where the trainee is rendering services in order to be readily available at all times to provide advice, instruction and assistance to the trainee. Being on campus in the cafeteria does not constitute being in the clinic able to provide immediate and direct supervision of the trainee caring for the patient.

28. Respondent's failure to have another licensed acupuncturist readily available to provide necessary patient care is a simple departure from the standard of care. Respondent failed to maintain a check-in/check-out log available for any clinic personnel, student, or intern to review to determine which licensed acupuncturist practitioners were on duty to assist with the patient when Respondent was not present.

29. There was a simple departure from standard of care when an unauthorized trainee removed the needles from patient D. According to some of the renditions of the care provided to patient D. a student assistant who was not trained, experienced, or authorized to perform needle insertion or removal, removed needles from the patient without appropriate supervision. The standard of care requires that a supervisor may only assign patient treatments to an authorized trainee which can be safely and effectively performed by the trainee and which are consistent with the level of training received by the trainee. The standard of care states that a licensee is
liable for the care provided by the trainees under his supervision. The removal of needles by an
unauthorized person is a simple violation of the standard of care.

30. There was a simple departure from standard of care exhibited by Respondent’s failure
to be aware of pertinent information his trainees possessed about patient D.’s continual distress
throughout her treatment, which distress significantly increased after he left the clinic.
Respondent’s failure in this regard is illustrated by his failure to describe the patient’s weakened
state after he allegedly removed the needles, as well as his failure to approve and initial his
student assistant’s report that the patient experienced a worsening panic attack, labored breathing,
weakened pulse and defecated on the floor in the bathroom prior to her cardiac arrest.
Respondent’s failure to be aware of relevant patient information is a simple departure from the
standard of care.

31. There was a simple departure from standard of care when Respondent left the patient
with student assistants without a student intern present to provide continuous care until the patient
was discharged from the acupuncture clinic. Respondent’s failure to confirm that the student
intern would remain with the patient under these circumstances is a simple departure from the
standard of care.

32. Respondent exhibited repeated failures to maintain and review adequate records.
Respondent failed to review and show signature approval of the addendum report provided by his
student assistant Ms. B. In addition, Respondent failed to maintain an appointment log with
information regarding when the patient signed into the clinic, when she was taken into a patient
room for treatment, and failed to maintain a check-in/check-out log available for any clinic
personnel, student, or intern to review to determine which licensed acupuncturist practitioners
were on duty to assist with the patient when Respondent was not present. These failures to
maintain and review are emblematic of his overall practice habits and are a simple departure from
the standard of care.
SECOND CAUSE FOR DISCIPLINE
(Unprofessional Conduct)

33. Respondent is subject to disciplinary action under Respondent is subject to disciplinary action under section 4955 for unprofessional conduct. The circumstances are as follows:

34. Complainant refers to and, by reference incorporates herein paragraphs 12-17 inclusive, above as though fully set forth here.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Acupuncture Board issue a decision:
