JURISDICTION

3. This Accusation is brought before the Board under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.
4. Section 4955 of the Code states:

"The board may deny, suspend, or revoke, or impose probationary conditions upon, the license of any acupuncturist if he or she is guilty of unprofessional conduct.

"Unprofessional conduct shall include, but not be limited to, the following:

"(a) Using or possessing any controlled substance as defined in Division 10 (commencing with Section 11000) of the Health and Safety Code, or dangerous drug or alcoholic beverage to an extent or in a manner dangerous to himself or herself, or to any other person, or to the public, and to an extent that the use impairs his or her ability to engage in the practice of acupuncture with safety to the public.

"(b) Conviction of a crime substantially related to the qualifications, functions, or duties of an acupuncturist, the record of conviction being conclusive evidence thereof.

"(c) False or misleading advertising.

"(d) Aiding or abetting in, or violating or conspiring in, directly or indirectly, the violation of the terms of this chapter or any regulation adopted by the board pursuant to this chapter.

"(e) Except for good cause, the knowing failure to protect patients by failing to follow infection control guidelines of the board, thereby risking transmission of blood-borne infectious diseases from licensee to patient, from patient to patient, and from patient to licensee. In administering this subdivision, the board shall consider referencing the standards, regulations, and guidelines of the State Department of Health Services developed pursuant to Section 1250.11 of the Health and Safety Code and the standards, regulations, and guidelines pursuant to the California Occupational Safety and Health Act of 1973 (Part 1 (commencing with Section 6300) of Division 5 of the Labor Code) for preventing the transmission of HIV, hepatitis B, and other blood-borne pathogens in health care settings. As necessary, the board shall consult with the Medical Board of California, the California Board of Podiatric Medicine, the Dental Board of California, the Board of Registered Nursing, and the Board of
Vocational Nursing and Psychiatric Technicians, to encourage appropriate consistency in the implementation of this subdivision.

"The board shall seek to ensure that licensees are informed of the responsibility of licensees and others to follow infection control guidelines, and of the most recent scientifically recognized safeguards for minimizing the risk of transmission of blood-borne infectious diseases.

"(f) The use of threats or harassment against any patient or licensee for providing evidence in a disciplinary action, other legal action, or in an investigation contemplating a disciplinary action or other legal action.

"(g) Discharging an employee primarily for attempting to comply with the terms of this chapter.

"(h) Disciplinary action taken by any public agency for any act substantially related to the qualifications, functions, or duties of an acupuncturist or any professional health care licensee.

"(j) The violation of any law or local ordinance on an acupuncturist's business premises by an acupuncturist's employee or a person who is working under the acupuncturist's professional license or business permit, that is substantially related to the qualifications, functions, or duties of an acupuncturist. These violations shall subject the acupuncturist who employed the individuals, or under whose acupuncturist license the employee is working, to disciplinary action.

"(k) The abandonment of a patient by the licentiate without written notice to the patient that treatment is to be discontinued and before the patient has had a reasonable opportunity to secure the services of another practitioner.

"(l) the failure to notify the board of the use of any false, assumed, or fictitious name other than the name under which he or she is licensed as an individual to practice acupuncture."
5. Section 4955.1 of the Code states:
"The board may deny, suspend, revoke, or impose probationary conditions upon the license of any acupuncturist if he or she is guilty of committing a fraudulent act including, but not be limited to, any of the following:

6. Section 4959 of the Code states:

(a) The board may request the administrative law judge, under his or her proposed decision in resolution of a disciplinary proceeding before the board, to direct any licensee found guilty of unprofessional conduct to pay to the board a sum not to exceed actual and reasonable costs of the investigation and prosecution of the case.

(b) The costs to be assessed shall be fixed by the administrative law judge and shall not in any event be increased by the board. When the board does not adopt a proposed decision and remands the case to an administrative law judge, the administrative law judge shall not increase the amount of any costs assessed in the proposed decision.

(c) When the payment directed in the board's order for payment of costs is not made by the licensee, the board may enforce the order for payment in the superior court in the county where the administrative hearing was held. This right of enforcement shall be in addition to any other rights the board may have as to any licensee directed to pay costs.
"(d) In any judicial action for the recovery of costs, proof of the board's
decision shall be conclusive proof of the validity of the order of payment and the
terms for payment.

"(e) All costs recovered under this section shall be considered a reimbursement
for costs incurred and shall be deposited in the Acupuncture Fund."

7. Section 4961 of the Code states:

"(a) Every person who is now or hereafter licensed to practice acupuncture in this state
shall register, on forms prescribed by the Acupuncture Board, his or her place of practice, or, if he
or she has more than one place of practice, all of the places of practice. If the licensee has no
place of practice, he or she shall notify the board of that fact. A person licensed by the board
shall register within 30 days after the date of his or her licensure.

"(b) An acupuncturist licensee shall post his or her license in a conspicuous location in his
or her place of practice at all times. If an acupuncturist has more than one place of practice, he or
she shall obtain from the board a duplicate license for each additional location and post the
duplicate license at each location.

"(c) Any licensee that changes the location of his or her place of practice shall register each
change within 30 days of making that change. In the event a licensee fails to notify the board of
any change in the address of a place of practice within the time prescribed by this section, the
board may deny renewal of licensure. An applicant for renewal of licensure shall specify in his or
her application whether or not there has been a change in the location of his or her place of
practice and, if so, the date of that change. The board may accept that statement as evidence of
the change of address."

8. Section 4956 of the Code states:

AA plea or verdict of guilty or a conviction following a plea of nolo contendere made to a
charge which is substantially related to the qualifications, functions, or duties of an acupuncturist
is deemed to be a conviction within the meaning of this chapter.

AThe board may order a license suspended or revoked, or may deny a license, or may
impose probationary conditions upon a license, when the time for appeal has elapsed, or the
judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing the person to withdraw his or her pleas of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, complaint, information, or indictment. @

9. Section 490 of the Code states:

"(a) In addition to any other action that a board is permitted to take against a licensee, a board may suspend or revoke a license on the ground that the licensee has been convicted of a crime, if the crime is substantially related to the qualifications, functions, or duties of the business or profession for which the license was issued.

"(b) Notwithstanding any other provision of law, a board may exercise any authority to discipline a licensee for conviction of a crime that is independent of the authority granted under subdivision (a) only if the crime is substantially related to the qualifications, functions, or duties of the business or profession for which the licensee's license was issued.

"(c) A conviction within the meaning of this section means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action that a board is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

"(d) The Legislature hereby finds and declares that the application of this section has been made unclear by the holding in Petropoulos v. Department of Real Estate (2006) 142 Cal.App.4th 554, and that the holding in that case has placed a significant number of statutes and regulations in question, resulting in potential harm to the consumers of California from licensees who have been convicted of crimes. Therefore, the Legislature finds and declares that this section establishes an independent basis for a board to impose discipline upon a licensee, and that the amendments to this section made by Senate Bill 797 of the 2007 -08 Regular Session do not constitute a change to, but rather are declaratory of, existing law."
10. Section 493 of the Code states:

"Notwithstanding any other provision of law, in a proceeding conducted by a board within the department pursuant to law to deny an application for a license or to suspend or revoke a license or otherwise take disciplinary action against a person who holds a license, upon the ground that the applicant or the licensee has been convicted of a crime substantially related to the qualifications, functions, and duties of the licensee in question, the record of conviction of the crime shall be conclusive evidence of the fact that the conviction occurred, but only of that fact, and the board may inquire into the circumstances surrounding the commission of the crime in order to fix the degree of discipline or to determine if the conviction is substantially related to the qualifications, functions, and duties of the licensee in question.

"As used in this section, 'license' includes 'certificate,' 'permit,' 'authority,' and 'registration.'"
