

Tutorial Program Written Agreement

This form, along with the *Tutorial Program Curriculum Training Plan*, work together to meet the written agreement requirement, Acupuncture Regulations, Article 3, Section 1399.425 (h).

Length of Training Time

Typically, the length of program training time is based on a calendar year. If based on a calendar year, the minimum length of time in the program is 36 months, however, this may be adjusted based on exemption credit outlined in the *Tutorial Program Curriculum Training Plan*.

Training Plan

This may include: Any financial agreements between the supervisor and trainee, including what/if any payment the trainee will receive, how much, and/or for what kind of work; how often the supervisor and trainee will meet; what can the trainee do and when; when competencies plan to be reached; any other parts of the training plan agreed upon by the supervisor and trainee.

Method for Providing the Theoretical and Didactic Training

All theoretical and didactic training will be completed with a tutorial supervisor or through a school and how that time is split up must be outlined in the *Tutorial Program Curriculum Training Plan*. For the time that will be spent in school, no additional information is needed. However, any methods used in the time that will be spent with the supervisor must be outlined in this section. This may include: the books that will be used; delivery modes; any other methods for providing the theoretical and didactic training agreed upon by the supervisor and the trainee.

This agreement is made with the California Acupuncture Board (Board). Please note, the three sections above are meant as a record of an agreement made between the supervisor and trainee at the start of the tutorial training program. Modifications to the approved training plan must be requested and approved by the Board before implementation into the training plan. This includes the *Trainee and Supervisor Applications*, the *Curriculum Training Plan*, and the *Written Agreement Forms*.
