

New Acupuncture Fees Effective 1/1/21

Effective January 1, 2021, new acupuncture fees will go into effect with the enactment of Assembly Bill 3330 (AB 3330) (Calderon, Chapter 359, Statutes of 2020). The Board has not raised fees in over three decades and has been addressing its budgetary structural imbalance for the last seven years culminating in an independent third-party fee study conducted in 2019 that reported revenue losses amongst all of the Board’s fees. The increase in fees is necessary at this time for the Board to avoid insolvency, align its revenues with its expenditures, and eliminate the structural imbalance. Doing so allows the Board to continue licensing and regulating acupuncturists for the protection of California consumers.

The following chart shows each new fee set by AB 3330 (BPC sections 4970 and 4971).

Fee Name	Current Fees	New Fees as of 1/1/21
